

**HOW
CAN I
INSTALL
INFINI?**

INSTALLING INFINI

PC

MAC

1/
Download [Infini](#)
from the site www.cnap.graphismeenfrance.fr/infini/en/

2/
— Open the folder [Infini-cnap-engl_fonts-specimen-v1.2](#)
— Open the folder [01_Fonts](#)

3/
— Repeat the following steps for each of the four folders.
Open a folder: [01_Regular](#), [02_Italic](#), [03_Bold](#), [04_Pictos](#),
— In the folder, double-click the [.otf](#) file
— Click [Install](#)
— Close the window
— Restart the computer (recommended)

or use the alternate method:

— Click [Start](#)
— Select [Control Panel](#)
— Open the [01_Fonts](#) folder
— Copy/paste the 4 [.otf](#) files
— Restart the computer

1/
Download [Infini](#)
from the site www.cnap.graphismeenfrance.fr/infini/en/

2/
— Open the folder [Infini-cnap-engl_fonts-specimen-v1.2](#)
— Open the folder [01_Fonts](#)

3/
— Repeat the following steps for each of the four folders.
Open a folder: [01_Regular](#), [02_Italic](#), [03_Bold](#), [04_Pictos](#),
— In the folder, double-click the [.otf](#) file
— Click [Install](#)
— Close the window
— Restart the computer (recommended)

or use the alternate method:

— Open your User folder, 
which normally bears [«Your Name»](#)
— Double-click [Library](#) (if it is not shown,
hold the [Alt/Option](#) key while accessing the main menu)
— Double-click [Fonts](#)
— Copy/paste the [.otf](#) files

Important: Other file formats, used for the Internet,
are located in the [02_Webfonts](#) folder

www.cnap.graphismeenfrance.fr/infini/en/

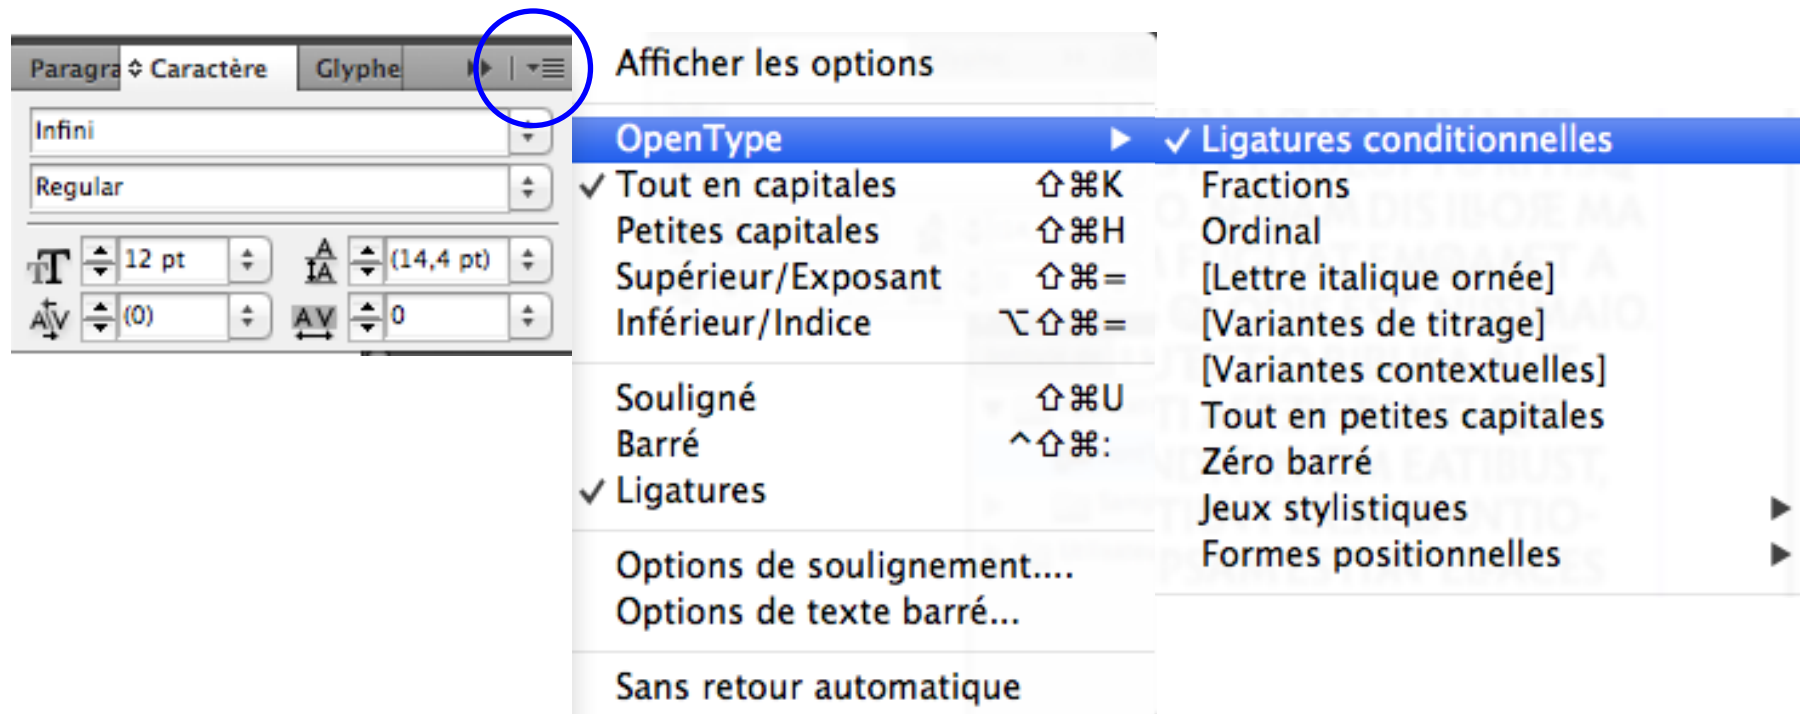

**HOW
CAN I
USE
INFINI?**

USING INFINI

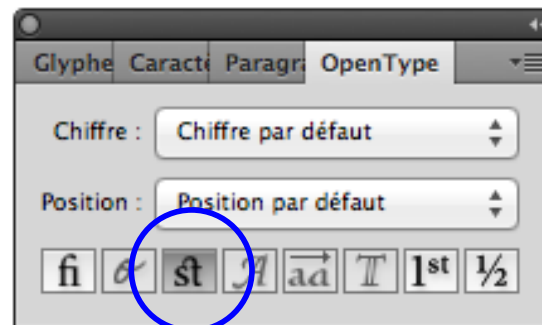

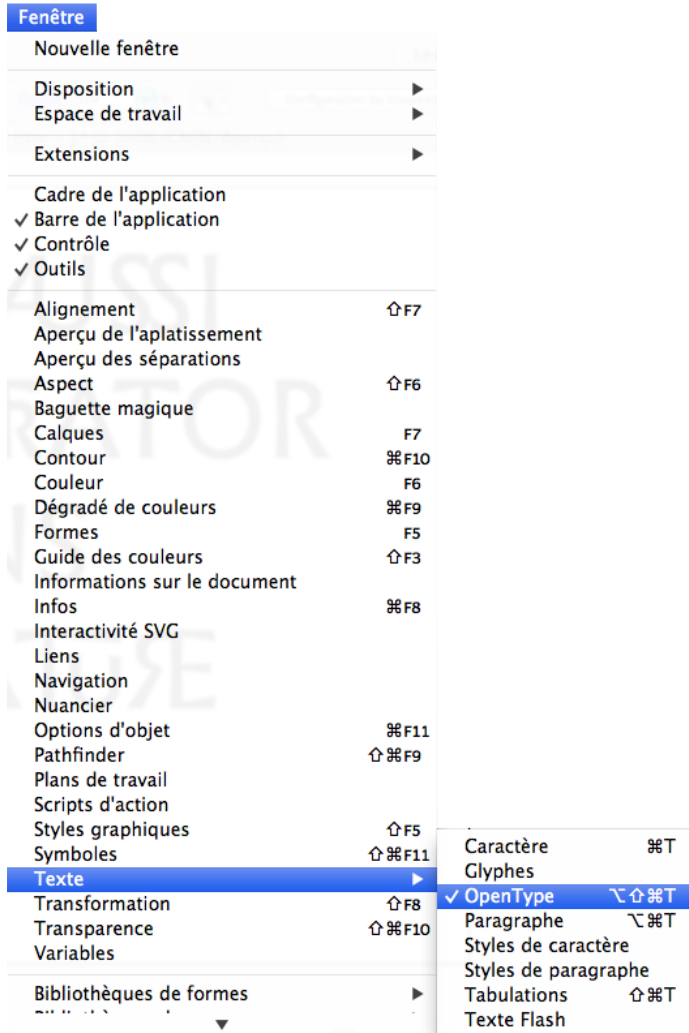

- The download contains 4 files:
[Infini_regular.otf](#), [Infini_italic.otf](#), [Infini_bold.otf](#)
and [Infini_picto.otf](#).
- The Roman includes ligatures specifically drawn
for upper case letters; the bold includes pictograms.
- The OpenType functionalities are disabled
by default. The procedure for enabling them depends
on the software you are using:
 - [InDesign](#)
 - [Illustrator](#)
 - [TextEdit](#)
 - [Pages](#)
 - [Microsoft Word \(Mac\)](#)
 - [Microsoft Word \(PC\)](#)

- These programs do not implement the functionalities
in the same way. In [OpenOffice](#) & [LibreOffice](#), the font
enables or disables them by default, but the user does
not have the choice. We have decided to disable them,
to avoid placing constraints on the user. That is why
we have provided the file [Infini_picto.otf](#), which is
composed entirely of pictograms, so you can access
them easily.
